

FURNITURE DESIGN AND VISUALIZATION

it's a complete journey that takes the participant step by step from initial idea to market-ready product. Throughout the program, participants get a full immersion into a product's entire lifecycle — starting with research and exploration, moving through design and development, and ending with manufacturing and market readiness — all in direct collaboration with industry partners who represent the real market.

JOB PROFILES

FURNITURE DESIGNER. • FURNITURE VISUALISER. • TECHNICAL OFFICE.

TOTAL HOURS

1,370hrs

Theory + hands-on labs

DELIVERY

Blended

Online & on-site

UNIVERSITY GRADE

Good

Minimum grade required

Where graduates work

C.REALITY Design

Kabbani Furniture

IKEA

"C&A Voin"

Alchemy Design Studio

Etqan Furniture

El Shaded Group

Who may apply

Open to graduates in

- FACULTY OF APPLIED ARTS.
 - FACULTY OF FINE ARTS.
 - FACULTY OF ARTS & DESIGN.
 - INSTITUTES & ARTS ACADEMIES Engineering,
 - Faculty of Engineering .
- with a minimum grade of Good or higher.

Selection process

01 IQ & English Exam

Online exam covering problem-solving aptitude and English proficiency.

02 Technical Exam

Computer-based assessment covering the program's core technical fundamentals.

03 Technical Interview

Interview with the technical committee.

04 Interpersonal Interview

Candidates who pass the technical interview are invited to this final stage.

Program content – 1,370 hours

CATEGORY	HOURS	SHARE	KEY COURSES
● Design Concept	320 hrs	23%	This module takes an idea from first spark to a feasible, well-defined concept — balancing form, function, material, and cost from day one . Focused on idea Design thinking, Idea Generation, Sketching, Material and cost awernes
● 2D Presentation Techniques	84 hrs	6%	This module focuses on developing the skills needed to present and document design work professionally through 2D tools — turning ideas into clear, industry-ready visuals and technical drawings.
● 3D Presentation Techniques	425 hrs	31%	This module focuses on developing the skills needed to translate 2D concepts into realistic 3D models — enabling participants to visualize, refine, and present their designs with depth, accuracy, and market-ready quality.
● Technical Office	150 hrs	11%	This module focuses on translating a finalized design into precise, production-ready technical documentation, Focused on Technical Drawings and Dimensioning & Specifications
● Soft Skills	91 hrs	7%	Communication Essentials for Professionals, High Impact Presentations, Job Seeking Skills, Professional Demeanor
● Graduation Project	300 hrs	22%	participants apply everything they've learned to design and develop a complete product or furniture piece — from initial concept to a market-ready outcome — in collaboration with an industry partner.

Student Deliverable

- Design a product/furniture piece end-to-end — from concept to prototype — through a live industry-partnered project.
- Apply real-world design constraints — cost, materials, and manufacturing — not just theory.
- Build an industry-validated portfolio,
- Pitch and present work professionally to industry partners.

Before you apply

Applicants should preferably have hands-on experience with 2D design software (e.g., AutoCAD) and 3D modeling software
