

# GAME ART

Interactive Media & Game Art students in ITI will continue to specialize in their area of interest as well as join a game team where they will spend a significant amount of time working on a team-based project. They will design, create and integrate visual assets. They will enhance the looks, also making the environment more interactive with VFX for games produced in collaboration with 2D & 3D Game Art and Game Development students while balancing the development of personal projects and a portfolio. An important aspect of the Technical Game Art major is the collaborative environment of our game studio, where Technical Game Art Track work with their teammates in 2D & 3D Game Art and Game Programming track to build games from start to

## JOB PROFILES

**Character Artist · Hard-surface Artist · Game-play Animator ·  
XR Artist · Concept Artist · Environment Artist · Technical Artist ·  
FX Game Artist · Technical Director for Games · Shading Artist**
