

2D ANIMATION AND MOTION GRAPHICS

The 2D Animation and Motion Graphics track prepares graduates to become professional visual storytellers capable of transforming ideas into compelling animated content for film, television, advertising, and digital media. Across 1,145 hours, participants build hands-on expertise in character animation, motion graphics, storyboarding, visual storytelling, rigging, compositing, and industry-standard production workflows — preparing them for careers in animation studios, creative agencies, media production companies, and the rapidly growing digital content industry.

JOB PROFILES

**2D Animator · Illustration Artist · Motion Graphic Designer ·
Concept Artist · Environment Designer · Character Designer ·
3D Motion Graphic Designer**

Who may apply

Applications for our creative and design tracks are open to graduates and final-year students from all academic disciplines and recognized universities, provided they complete their degree prior to program enrollment. While anyone with a passion for design can apply, we highly encourage and give preference to graduates from all Art-related backgrounds, including Fine Arts, Applied Arts, Art Education, Computer Graphics, and Media & Design. In line with our inclusive admission policy, a minimum graduation tier of Fair is fully accepted."

Selection process

01 IQ & English Exam

Online exam covering problem-solving aptitude and English proficiency.

02 Technical Exam

Computer-based assessment covering the program's core technical fundamentals.

03 Technical Interview

Interview with the technical committee.

04 Interpersonal Interview

Candidates who pass the technical interview are invited to this final stage.

Program content – 1,344 hours

Student Deliverable

To successfully complete the track, every student is required to participate in the production of a team-based 2D animation or motion graphics final project that demonstrates professional-quality storytelling, design, animation principles, and production workflow, meeting industry standards.

Software/Vendor Certificates (Upon Request): In addition to the final project, students may be required to obtain and submit official software certifications (e.g., Adobe Certified Professional) for designated courses, only if requested by the track leader during the program.

each student must complete at least one freelancing project relevant to the track before graduation.
