Who may apply

Applications for our creative and design tracks are open to graduates and final-year students from all academic disciplines and recognized universities, provided they complete their degree prior to program enrollment. While anyone with a passion for design can apply, we highly encourage and give preference to graduates from all Art-related backgrounds, including Fine Arts, Applied Arts, Art Education, Computer Graphics, and Media & Design. In line with our inclusive admission policy, a minimum graduation tier of Fair is fully accepted.

Selection process

01 IQ & English Exam

Online exam covering problem-solving aptitude and English proficiency.

02 Technical Exam

Computer-based assessment covering the program's core technical fundamentals.

03 Technical Interview

Interview with the technical committee.

04 Interpersonal Interview

Candidates who pass the technical interview are invited to this final stage.

Program content – 1,392 hours

● Soft Skills	57 hrs	4%	Communication Essentials for Professionals, High Impact Presentations, Job Seeking Skills, Professional Demeanor
● Graduation Project	300 hrs	22%	

Student Deliverable

Final Graduation Project:

To successfully complete the track, every student is required to actively contribute to a collaborative final production project developed jointly with students from multiple tracks. Each student will be assessed based on the quality of their individual contributions, technical execution, collaboration, adherence to the production pipeline, and ability to meet professional industry standards.

Software/Vendor Certifications (Upon Request):

In addition to the final project, students may be required to obtain and submit official software certifications (e.g., Autodesk Certified User, Adobe Certified Professional, or other relevant certifications) for designated courses, only if requested by the track leader during the program.

Freelancing Requirement:

Every student is expected to complete at least one freelance job during the program.

Before you apply

We highly recommend that candidates review the following courses prior to applying for admission to our program. The courses cover multiple points in the specialization areas of 3D Art tracks.
