

CROSS PLATFORM MOBILE APP DEVELOPMENT WITH AI INTEGRATION

Develops cross-platform application developers who build mobile apps with Flutter, React Native, and .NET MAUI on C#/.NET or Node.js back-ends, with TypeScript and CI/CD basics, plus a full generative-AI strand (LLM integration, RAG, agents/MCP, AI-assisted coding) delivered in .NET or JavaScript. Once consolidated on a primary framework, graduates suit Cross-Platform Mobile Developer, .NET Developer, or Full-Stack Developer roles, with AI application/integration as a secondary capability. Not a machine-learning qualification. (Note: the programme is over-scoped across web, .NET, and mobile; graduates are most employable after focusing on one primary stack.)

JOB PROFILES

**Cross-Platform Mobile Developer (Flutter/React Native Developer) ·
.NET MAUI Developer (C# /.NET) · Full-Stack Web Developer (MEAN / MERN) ·
AI Application Developer (JS/.NET) - (Generative AI — LLM · RAG · Agentic) ·
AI Automation Developer (n8n)**

Who may apply

All University Graduates with prerequisites of basic programming skills with a minimum grade of Good or higher.

Selection process

01 IQ & English Exam

Online exam covering problem-solving aptitude and English proficiency.

02 Technical Exam

Computer-based assessment covering the program's core technical fundamentals.

03 Technical Interview

Interview with the technical committee.

04 Interpersonal Interview

Candidates who pass the technical interview are invited to this final stage.

 Program content – 1,437 hours

CATEGORY	HOURS	SHARE	KEY COURSES
● Software Development Fundamentals	246 hrs	17%	Database Fundamentals, Data Structures & Algorithms, OOP, Software Engineering & UML, Source Control, Secure Coding, Agile, Operating Systems, Networks
● Core	822 hrs	57%	Client-Side Development, Advanced JS, ES6 & TS, Responsive Design Frameworks, Responsive Design & Css Pre, JS Packaging & Bundling, Angular with AI, React with AI, Next with AI, Material UI with AI, NoSQL, Node.js with AI, JS Unit Testing & TDD, SOLID & Design Patterns, Advanced SQL Server, Visual C# .Net, LINQ, Entity Framework 6 & Core, Web APIs for Mobile Developers, .NET MAUI, MVVM Toolkit, React Native with AI, Firebase, Dart, Flutter with AI, MS - Azure, Docker and Kubernetes , CI/CD, UI/UX using AI, IIS Administration, Gen AI & Prompt Engineering, AI-Assisted Coding & AI Agents, AI Automation & Orchestration, Gen-AI Development Foundations, RAG & Agentic AI
● Soft Skills & Career Development	69 hrs	5%	Communication skills, Presentation Skills, Job Seeking Skills, Professional Demeanor, Remote Working Practices, Teamwork & Leadership Skills, Freelancing
● Graduation Project	300 hrs	21%	

75% face to face Learning| 25 % Online, Common Hardware ,Common Software

 Student Deliverable

Each student must deliver at least ONE freelancing job and an international certificate based on his track

 Before you apply

These topics will be discussed with you in the interviews (Resources applicants can visit or study before interview)

 Introduction to Programming
