

NATIVE MOBILE APPLICATIONS DEVELOPMENT WITH AI INTEGRATION

This Track equips participants with the skills required to design, develop, test, and deploy high-quality native mobile applications for iOS and Android platforms. Through hands-on training and real-world projects, learners gain practical experience in mobile UI design, application architecture, data management, testing, and industry best practices, preparing them for careers as professional mobile application developers.

JOB PROFILES

**Android Applications Developer · iOS Applications Developer ·
Mobile App Developer ·
Cross-Platform Mobile Developer (Flutter / KMP)**

TOTAL HOURS

1,287hrs

Theory + hands-on labs

DELIVERY

Blended

Online & on-site

UNIVERSITY GRADE

Good

Minimum grade required

CERTIFICATIONS

2

Industry-certified

Where graduates work

Vodafone Egypt VOIS Orange Egypt Etisalat Fawry Aman
InstaBug Deloitte Valu Banque Misr NBE Thirdwave
Robusta Yassir Fixed Solutions Link Development integrant

Certifications earned

 **IOS** — App Development with Swift Certified User

 **Android** — Associate Android Developer

Selection process

01 IQ & English Exam

 Online exam covering problem-solving aptitude and English proficiency.

02 Technical Exam

 Computer-based assessment covering the program's core technical fundamentals.

03 Technical Interview

 Interview with the technical committee.

04 Interpersonal Interview

 Candidates who pass the technical interview are invited to this final stage.

Who may apply

All University Graduates may apply with minimum grade: Good

 Program content – 1,287 hours

CATEGORY	HOURS	SHARE	KEY COURSES
● Fundamental Courses	219 hrs	17%	Agile Software Development Methodologies, Computer Networks Fundamentals, Data Structures and Algorithms, Database Fundamentals, Introduction to Software Engineering , Operating Systems Fundamentals, Introduction to Object Oriented Programming Concept, Freelancing Basic, Versioning Control Systems
● Core Courses	711 hrs	55%	Developing Applications Using Java SE, Java Design Principles and Patterns, XML and JSON Essentials with Java, Java API for Restful Web Service, Android Applications Development Using Java, Material Design, Design Patterns for Android, Rx Java for Android, Kotlin Programming Language, Developing Applications for Android using Kotlin, Kotlin Coroutines, Android Dependency Injection, Mobile User Interface Concepts (UI), Objective C, iOS Applications Development using Objective C, iOS Applications Development using Swift, Design Patterns for iOS, iOS Applications Unit Testing, Reactive programming for iOS, Swift UI, iOS Dependency Injection, Flutter Development Course, Kotlin Multiplatform, Introduction to Generative AI and Prompt Engineering, AI Workflow Automation and App Orchestration, Gen-AI Development Foundation, AI-Assisted Coding and AI Coding Agents
● Soft Skills	57 hrs	4%	Communication Essentials for Professionals, High Impact Presentations, Job Seeking Skills, Professional Demeanor (Workshop)
● Graduation Project	300 hrs	23%	

Hands-on labs are conducted in-person. Online components cover theory and self-study modules on MaharaTech.

 Student Deliverable

Every graduate must deliver at least ONE freelancing job and obtain an international certification relevant to their specialisations

 Before you apply

Explore these resources before your interview. Applicants are expected to have reviewed this material.

 Mastering Object-Oriented Programming (OOP) using C++
<https://maharatech.gov.eg>

 Introduction to CyberData Structures & Algorithms security

 Programming language Competency & Problem Solving

 Android App. Development (Plus)

 iOS App. Development (Plus)
